EMERGENCY FIELD BED

The Emergency Field Bed (EFB-1051) is designed for emergency medical response. The bed is constructed from steel finished with an impermeable coating.

The Emergency Field Bed (EFB-1051) is designed with an adjustable head and foot, the head of the bed can be tilted up to a 75° angle. The foot of the bed can be adjusted to a 45° angle with an optional footboard attachment. It can accommodate a maximum capacity of 450 LBS. Dimensions include a length of 81", a width of 37", and height of 26" (*Measured from the foot to the top of the flat mattress. Note: other vendor mattress heights may vary*).

All necessary hardware is provided and can be quickly assembled. This includes a Removable IV stand that can be fitted on either side of the bed.

The EFB-1051 has customizable options to fit your specific needs. These options include a footboard, removable side rails, caster wheels, and a CPSC - Cal -1633 Compliant Mattress.

Products are built to order. Now taking orders at 877.422.7878 or at fastbeds-na.com.
